

Superphosphate Ammoniated

Specification

TU U 6-14005076.048-97		
Product Info:	Granulated Material	
Packing:	40-50kgs Polypropylene Bags (PP)	
Applications:	This granulated phosphate-nitrogen fertilizer is used for all plants and on all kinds of soils. Ammoniated superphosphate usage speeds up plants growth and blossoming.	
Substance:	Percentage by weight, %	
	Superior Grade	Grade 1
Total Nitrogen, min	3	2
Digestible Phosphates (as P ₂ O ₅), min	17	16
Free Acid (as H ₃ PO ₄)	3	3
Total Phosphates (sum of fast- and slow-acting forms of P ₂ O ₅), min	18	17
Cadmium, max	0,001	0,001
Water, max	3	3
Parameter:	Value	
	Superior Grade	Grade 1
Static strength of granules MPa (kgf/cm ²), min	2 (20)	2 (20)
Friability, %	100	100
Total effective activity of natural radionuclides, Bq/kg, max	1860	1860
Granulometry (Size):	Percentage by weight, %	
	Superior Grade	Grade 1
< 1 mm, max	6	6
1 - 4 mm, min	82	82
> 6 mm	0	0
